

CLOS DU MILIEU 2021

● *monopole*

GRAPE VARIETY

100% melon de Bourgogne

PLOT PROFILE

Village of le Landreau, bedrock of schists. Vines planted in 1974.
Clos du Milieu is the cadastral name of this vineyard plot, which is a monopole belonging exclusively to Domaine Luneau-Papin.

VINEYARD CARE THROUGH THE SEASONS

Spring soil preparation has been performed in a traditional manner (earthing down and hoeing) throughout the entire estate since 2009. We treat and take care of the vines with natural preparations (no chemical products) and sow cover crops such as pulses and cereals at the end of summer, with close attention to the needs of each crop. We stimulate soil life with one or two applications of horn dung; (preparation 500) in spring and apply a horn silica (preparation 501) after bloom and before harvest if necessary.
Vines are short cut pruned (single guyot) during winter. Vine density is 6,500 plants per hectare. Careful sorting is carried out in the vineyard by grape harvesters.

WINEMAKING TECHNIQUES

Grapes are pressed in a pneumatic press, strength and length of pressing is adapted to each vintage. Spontaneous fermentation using only natural yeasts. Fermentation and maturation on lees in underground glass lined vats for 8 months, without racking until bottling during summer time 2022.

TASTING

Serve at 12°C
Excellent as an aperitif with shellfish, fish in a sea salt crust, roasted fillet of sea bream, Asian cuisine, or fresh cheeses.

PRESS

DOSSIER FAV - MONOPRIX NOS 4 COUPS DE ♥
DOMAINE LUNEAU-PAPIN CLOS DU MILIEU 2021 89/100
Notes of crunchy fruits (apples, vine peach), mineral matter. Biting freshness, vibrant bitterness. For stuffed mussels. Pierre-Marie and Marie Luneau are the leaders of the new generation of Muscadet. **RVF Par Jérôme Baudoin & Venise Seychelles 2022**

Endearing and dynamic winegrowers, they are at the origin of great white wines that are absolutely essential discover. Coming from a plot of shale, this **Clos du Milieu** cuvée enchants with its roundness of fruit, its amplitude and its final salinity. **EN MAGNUM été 2021**
